Incorporated by Special Act of the Parliament of the Dominion of Canada

Licensed by the Dominion Insurance
Department

The solvency of a company licensed by the Dominion Insurance Department is thoroughly investigated each year by trained auditors from the department. No policyholder of a Dominion chartered company has ever found his policy insecure.

One of the many stringent conditions required of companies, with a Dominion license, is a deposit of \$50,000. The deposit of the Commercial Life is in excess of that required by the Act.

Over and above this deposit, each Dominion chartered company is compelled to maintain reserves considered adequate to guarantee its ability to meet its obligations. These reserves increase with every dollar's worth of insurance written.

Life Men needing the impetus and enthusiasm of a new organization, with the prospect of highly remunerative positions of responsibility, are invited to correspond.

Introductory

THE PUBLISHERS take pleasure in presenting herewith the Sixteenth Annual Edition of Henderson's Edmonton Directory, comprising the territory of the City proper and all adjoining subdivisions.

The Advertising Department presents the names of corporations, firms and individuals who have made Edmonton the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, contains statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 11215 65th Street is wanted: refer to street section 65th Street—glance down to 11215, then to the nearest intersection to 11215. It will be found that this number is on the east side of the street, two houses north of 112th, between 112th and 113th Avenues.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Edmonton, which forms a most efficient wholesale and retail buyers' guide.

ADVERTISING EDMONTON

The Edmonton Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its industries.

1921 population of Greater Edmonton, 71 214
These figures deal with Greater Edmonton, and are an estimate only, based
upon the number of names the Directory contains. It is not a census.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and fully appreciate the confidence which the business and professional men of Edmonton have always shown in their publications.

Greater Edmonton

Edmonton has, in the course of time, Edmonton has, in the course of time, had many names. Fort Augustus it was called by the Northwest Co. and Fort Edmonton by the Hudson's Bay Co. It was eventually called Edmonton, the name originally being taken from a poem by Wm. Cooper, mentioning Edmonton, which was a suburb of London.

EDMONTON 1795-1921

Edmonton's history dates back to 1795 when, history tells us, two powerful rivals in the trading of furs namely, the Northwest and Hudson's Bay Companies, were struggling for supremacy. A little further down the river from the present site each had established its post, Fort Augustus belonging to the Northwest Company and Fort Edmonton to the Hudson's Bay Company.

In spite of the ill-feeling between the two, they built their posts closely together both for reasons of trade competition and safety, for the Indians were sometimes hostile and doubtless they went on the truth that "there is safety in numbers."

For several years business flourished,

For several years business flourished, the Indians were becoming more peaceful and contented, but one day they sacked the town and for some time it was practically deserted.

Some years later two new posts were established, this time on the city's present site, and in 1821 the two companies rather than keeping on, on an unfriendly basis, came to the conclusion that is was much easier to work together and so amalgamated, retaining the name of the Hudson's Bay Company. From this time on conditions were much better and in 1870 the first united effort to make Edmonton a town of importance was put forth and from an extremely small beginning we find at this time a population of one hundred and

extremely small beginning we find at this time a population of one hundred and fifty, with a stage coach making a weekly run from Calgary, bringing with it adventurers and keen business men who saw in Edmonton vast opportunities for money making and development. As early in 1876 men came, who since have made a name and created splendid business enterprises, amongst whom were the Hon. Frank Oliver and John A. McDougall, the former starting the Edmonton Bulletin, while the credit of operating the first hotel goes to Donald

operating the first hotel goes to Donald

operating the first hotel goes to Donald Ross.

The first school of importance was started in 1881 and among its pioneer teachers the name of Richard Secord stands out prominently.

Joseph Picard, Alex. Larne, J. H. Gariepy, J. W. Huff, D. R. Fraser and others soon felt the call and were amongst the earliest settlers and a great pride must be theirs in seeing a scattered village grow into a hustling city with a splendid future before it and knowing that they played no mean part in its wonderful growth.

Oil and raw furs are commodities of which Edmonton promises to have a goodly share. The opening of the north country by the discovery of vast oil fields, with the untiring efforts of several large companies of unlimited means to develop it, bids fair to make Edmonton an important distributing centre and it will compare favorably with any city in North America as a centre for oils and raw furs.

Edmonton was first incorporated in 1892 and has expanded both in population and area since that time until the former amounts at present to upwards of 65,000 and the latter to more than 27,000 acres. In the year 1906, in the administration of the Hon. A. C. Rutherford, the University of Alberta was established in Strathcona and its noble piles of buildings are a conspicuous tribute to the foresight of its founders and the development of the City. By the amalgamation of Edmonton and Strathcona in 1912 the two cities became one and the river, which formerly divided them, may now be said to unite them by means of its four fine steel bridges.

The geographical situation of Edmon-

The geographical situation of Edmonton is about 75 miles south of the centre of the Province and from that advantageous point affords transportation facilities over three transcommental lines besides being the terminal of two others and of thirteen radiating systems.

The Edmonton district contains the finest farming lands in the west and is not dependent on irrigation schemes for its fertility. It is ideal for mixed farming and as a dairy country cannot be equalled.

farming and as a dairy country cannot be equalled.

Edmonton owns and operates all its utilities, viz., Power Plant, Electric Light and Power distribution, Street Railway, Waterworks, Telephone (automatic system), Markets and Municipal Golf course, the administration of which are in the hands of the City Commissioners, as are also the Fire and Police departments. The Council consists of a Mayor and ten Aldermen elected from the city at large, the Mayor for one year and the Aldermen for two.

There are four first class Hospitals in addition to the Isolation Hospital, two of which (with the Isolation) are under the control of the Hospital Board and the other two are controlled by two of the Catholic Orders and together furnish adequate accommodation of the most up-to-date character to the sick both of the City and of the district. The University of Alberta have near completion a building of the extension of medical teaching, the cost of which is in the neighbourhood of \$700,000.00.

The City donated a very choice site for a Memorial Hall to its soldiers and the funds for its erection were collected by the Great War Veterans Association who are now housed in their own building which furnishes them a commodious club house and convenient quarters.

ing which furnishes them a commodi-ous club house and convenient quarters for the housing of their regimental records and the carrying on of their

records and the carrying on of their many activities.

The Edmonton Public Library is one of the institutions of the City carrying on a large work and affording much appreciated facilities for the study of weighty matters by means of its reference department, or of entertainment by means of its very complete stock of works on lighter subjects.

Of churches there are over one hundred, comprising all the known sects, (and one might almost say, many of the unknown).

unknown).

The Board of Public Welfare is maintained by the contributions of the benevolent, to which the City adds \$2 for each \$1 collected and takes care of those who are so unfortunate as to

require temporary assistance; it also (through its Superintendent) looks after the administration of the Mothers Pension Act to which the City is a contributor.

The City has upwards of 800 acres in parks including the Exhibition Grounds and Municipal Golf Links, and a supervisor of sports is appointed for the direction of the different games, for which ample playgrounds are provided and which include a splendidly equipped Athletic Park. Protessional Pall and Hockey teams are amongst the foremost in the west.

Established industries comprise saw mills, lumber, brick yards, sash, door and joinery factories, iron works, and for boat-building, clothing factories, cigar factory, biscuit factory, candy factories, brewery and borting works, box factory, fur manufacturing and raw fur and hids, tanneries, flour mills and elevators, florists and nurseries, saddlery and harness, tents and mattresses, fam. vinegar, printing, bindery and sta-

elevators, florists and nurseries, saddlery and harness, tents and mattresses,
jam, vinegar, printing, bindery and stationery, dairy and cheese and many other
factories in addition to which Edmonton is in the centre of a vast coal field,
some thirty mines operating in the immediate vicinity.

Aerial transportation is not new to
the City, demonstrations having been
given for several years past; 1919, however, saw the first application of the
airplane to commercial purposes when
the plane "Edmonton" (owned by the
City) commenced to make daily ascents
and excursions; a 7-passenger Monoplane has recently made a successful
flight from New York to Edmonton.
Young Edmonton is most amply provided for in the matter of primary and
secondary education by means of the

There are, besides the above, a branch of the Normal School, several Commercial Colleges and Academies (including Music), also the Westminster Ladies College, and the undernoted Theological Colleges:

Alberta (Methodist), Robertson (Presbyterian), St. John's and Jesuit (Roman Catholic).

"Fair city of an ancient name, In thee the Old and New are one; May future ages crown thy fame; God send thee fortune, Edmonton."

W. Everard Edmonds.

EDMONTON WATERWORKS

The water supply is taken from the North Saskatchewan River through two 36-inch intakes into the pump station on the north bank of the river. At the pump station there are two six-million gallons and one eighteen-millon gallons low lift centrifugal steam-driven pumps, one six-million steam-driven centrifugal high-lift numb, and two ten-million electric high-lift pumps. The pressure on the higher street level is from 40 to 45 pounds and on the lower river flats from 95 to 100 pounds, while at the pump station from 105 to 110 pounds is maintained. The pressure for fire fighting is raised by the Fire Department's own booster equipment.

The Filter Plant comprises sixteen Roberts Gravity filters of one-half millions gallons each, the sedimentation basin and two clear water basins.

The system stands capitalized at \$2,405.701.00, the annual revenue for 1920 amounting to \$429,141.00.

Today the system is comprised of 167 miles of 4-inch to 30-inch water mains, 11,729 water services, 813 fire hydrants. About 400 new services are being added each year.

The daily consumption of water averages 6,215,000 gallons, or a percapita consumption for all purposes of 95 gallons per 24 hours.

The Department is managed by a superintendent and office staff of 14, with offices on the second floor of the Civic Block, and an outside construction and maintenance gang under \mathbf{a} foreman.

About 80 per cent. of the services are on meter, the following tariff as revised being in effect on April 15th, 1921.

Henderson's Edmonton Street and Avenue Directory

for 1921

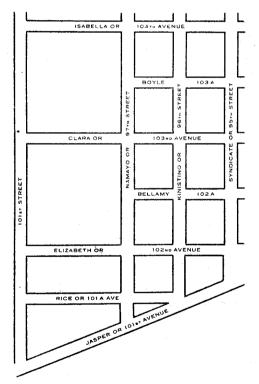

All Numerical System of Street Naming and House Numbering Plan

Streets run North and South, odd numbers South side; Avenues run East and West, odd numbers East side.

Streets are numbered from the East. Avenues are numbered from the South. Old 1st Street is 101st Street. Jasper Avenue is 101st Avenue.

Short avenues and short streets have an A number.

The East and South have the small numbers. The North and West parts have large numbers.

The original names of the following Avenues and Streets have been retained in this issue of the Directory: Jasper Ave., Main St., Stony Plain Road, St. Road, Fort Road Saskatchewan Drive and a few lesser known streets.

Examples House Numbering

- 1. 10312 on 96th Street. 12 is the house number as it is the last two figures. 103 is the First Avenue south of that block on 96th Street.
- 2. 10348 on 95th Street. 48 is the house number, 103 is the Avenue south, 95th Street.
- 3. 9624 on 102nd Avenue. House No. 24, 96th Street is the first street east of that house. The house is between 96th and 97th Streets.

NOTE—The arrangement of the following Street and Avenue Directory is in numerical order, with avenues preceding streets. Avenues and streets not numerically named appear first in Alphabetical Order. The arrangement by directions is East, West, South and North.

Where the odd and even numbers on an Avenue or Street are separated the South Side (odd numbers) on Avenues appear first, and the East Side (odd numbers) appear first on Streets.
